

Improving Mathematics Early Years and KS1

Children's early understanding of number is strongly associated with later mathematical achievement in primary and secondary school, and mathematical achievement in turn strongly predicts children's overall achievement.

This cross-phase programme brings schools together to explore practical, evidence-informed approaches for improving mathematics in the Early Years and Key Stage One.

Engaging with the best available evidence, practitioners and leaders will develop and implement a bespoke mathematics improvement plan for their setting so that all children can flourish.

The programme will focus on the five evidence-informed recommendations from the EEF's 'Early Maths' guidance report, published in January 2020.

Day 1 - 12th January 2024, 9:00am – 3:00pm
Day 2 - 23rd February 2024, 9:00am – 3:00pm
Day 3 - 8th March 2024, 9:00am – 3:00pm

Venue: St Austell Print Conference Centre.
