

iCT4 Cloud Hosted SIMS

Your data drives your decisions, informs your strategy and helps deliver a smooth-running school, able to focus on what's important - the children. Our Cloud Hosted SIMS package allows you to concentrate on running your school, safe in the knowledge that your data is secure, available when you need it and looked after by our dedicated SIMS experts with no need to purchase additional hardware.

Why Cloud Hosted SIMS?

- ✓ Available anywhere
- ✓ A fully-managed service
- ✓ Automated maintenance and updates
- ✓ Eliminate server hardware costs
- ✓ Reduce costly software licensing charges
- ✓ Transparent, simple pricing
- ✓ Built on Microsoft's 'Azure' cloud platform
- ✓ UK based datacentres
- ✓ Account Management sessions and SIMS advice is included with all subscriptions
- ✓ iCT4 have many years of experience as an official Capita SIMS Support Unit
- ✓ Our online and telephone helpdesk allows you to raise support queries with our SIMS specialists

Reliable access from the Microsoft Cloud

One of the main reasons schools move to Cloud Hosted SIMS is to reduce costs - our Cloud systems remove the need for on-site database servers, significantly reducing your hardware, licensing and running costs by removing the need for hardware to be based 'on premise'.

A fully-managed solution

Whilst schools focus on the quality of their electronic data, they sometimes overlook the need to keep their systems secure, up-to-date and patched, ensuring reliability and resilience against cyber attackers. We take care of the 'tech' for you, delivering 'SIMS-as-a-service', ensuring you are able to quickly and securely access your data and spend less time worrying about it.

Flexible budgeting options and cost savings

Cloud Hosted SIMS can be delivered as a simple 'per user, per month' charge, helping you to budget and adjust to changes in your school without the need for additional investment in hardware. Alternatively, for Multi-Academy Trusts, school clusters and federations, savings can be even greater by moving your entire group of schools to our platform.

iCT4 Cloud Hosted SIMS includes all you need to be able to access your data safely and easily. Simply connect your laptop/desktop or mobile device to the internet, download the connection details and you're good to go.
