

SIMS Assessment

iCT4, in partnership with Capita, are pleased to announce a SIMS Assessment session, covering assessment recording, tracking and analysis functionality, all of which are included with your existing SIMS package.

This morning session will be held at our newly launched conference venue, Trevenson House, located in Pool, and will be delivered by Janette Hall, from Capita.

Janette Hall has worked with Capita SIMS for 10 years as a School Improvement consultant and Customer Success Manager. She is a former deputy head teacher, responsible for assessment.

It is hoped that this session will give users an insight into a key area of SIMS.

The session charge is £25.00 per person. Refreshments will be provided.

Session Outline

In this session you will be shown the range of options to use SIMS to record and manage and analyse assessment data. This will show the pre-defined resources for both statutory and internal assessment recording and analysis. The session will include demonstrations on how to import the resources, tailor to your school needs and use them across the school to record, analyse and evaluate achievement and progress data. All of the resources shown are included with your SIMS package at no extra cost.

Target Audience – Head Teachers, Assessment Leads,

Session Date

9th July 2019 9.00 – 12.00

For further details and to book your places please contact sims@ict4.co.uk. Full joining instructions will follow.

If there are additional subjects you'd like covered in the future please let us know.
