

'Transforming Attendance in Cornwall'

OneCornwall invite you to become part of a drive to maximise attendance in school, attendance in lessons, participation in learning and participation in wider school life.

Despite our best efforts, absence rates remain stubbornly high. Inconsistent school attendance patterns, inconsistent lesson attendance patterns and a lack of participation in school, are issues that many of us are grappling with.

We will address this issue by working together through system generosity. Being involved helps create the evidence base for what is effective and what to avoid; based on work in Cornish schools to support Cornish pupils.

Become part of the transformation - share your expertise and experience to support our schools.

Join the conversation

Inform our thinking, please share your thoughts in our survey
