

## National PSHE CPD Programme (6 half-days – virtual delivery)

This is a comprehensive tutor led programme which progressively builds upon the previous session, enabling participants to apply an evidence based approach to their teaching and strategic developments

Participants will be required to plan and deliver a PSHE lesson, which will be observed - this forms part of the reflective approach underpinning the course.

All necessary course materials are provided; these will support participants during each of the training days and will help to direct further independent reading and study.

\*Certificates will only be awarded to participants who attend each of the 6 training sessions and successfully complete their lesson plan and observation\*
